

A Brief Explanation of How To Buy Pheromones

Humans only respond to the **pheromones** from other humans. The precise result of **human pheromones** is not known, but studies have proven they are effective. The aftershaves should produce chemical reactions in the body that will **attract others**. There are pheromones for men and women that are meant to attract members of the opposite sex. This is the basic concept of the use in fragrances.

Pheromones were first discovered in 1959 when a group of experts studied the behaviors of insects. According to the study upon pheromones, insects excrete this substance to communicate with their particular species. Later on, it was found out that other styles of animals including humans do have pheromones which are responsible for some forms of marketing communications especially between moms as well as their infants plus the attraction between sexes.

Human Pheromones Tend to be Something We All Have

They impact our lives even though we are probably not aware of how they do so. Pheromones are known to be robust and also important, and it cannot hurt to experiment for yourself to see if you see any big difference.

Buy Products With **Androstenone**

Out of the three main pheromones androstenone will be the most powerful one. Although there is no scientific resistant to support this fact, many users prefer to have androstenone as the main ingredient in their **pheromone product**. It is best to get heavy androstenone or pure merchandise instead of buying a premixed product. Also as it is very powerful, one could see the consequences of pheromone use on an individual very quickly and easily.

“
