

How to attract Women Along with Synthetic Pheromones

Pheromones in humans are chemical substances which are let go of through sweat from the body as a hint of **sexual attraction**. Even though these pheromones are made in the body but in today's age and time man has had the opportunity to make these kinds of pheromones artificially as well. There have been many trials and studies to check when these types of artificial pheromones go a long way just like naturally occurring pheromones and their reviews have revealed that these man made pheromones have in fact got a very high rate of success in attracting the opposite sex. In this article all of us are going to explore more about these pheromones and how to use them effectively.

Different Types of Pheromones

There are basically two types of pheromones developed by a **human body**. One produced by the male body is called **androstenone** and the other the one which is established in a woman's body is called copulin. They are basically both chemical substances which take place in the body and act as messengers of sex attraction. The more the body generates these chemicals higher the chances of attracting a man or woman. This recent scientific development have made people really interested in donning manmade pheromones.

Artificial Pheromones

Man made artificial pheromones usually have the same basic formula and also the difference lies in the quality of ingredients used. It is very important to make use of cologne that has a high portion of pheromones in it. These kinds of **pheromones** are not really cheap so you need to check up the products high quality and also reputation thoroughly before going ahead with the purchase.

Most men think that after they apply pheromones women will stick to them like glue but this is far from reality. Pheromones only help in increasing your sex charm but you will have to make an effort of proceeding ahead and approaching women of the wish. Pheromones can help in initially making you seem popular with all of them and then it will be your own personality and the way you carry forwards the speak that will make her want you. In short pheromones will make people like you that may help in elevated confidence levels and we all know that women such as people who are brimming with confidence.
