

Max Attraction: The Max Attraction Pheromone Cologne Examined

Being well aware that many folks continue to be blindly stumbling throughout the web in search of real information regarding attractant pheromones, after listening to the actual name **Max Attraction** for years, but finding no reliable information on this **pheromone spray**, I opted to give it a go!

During my initial research I discovered that Max Attraction Gold, is pretty much the particular flagship **pheromone cologne** produced by a company known as LuvEssentials. I'm embarrassed to say I knew very little about these folks at the time I ordered their **pheromone spray** and willing to put it through its paces.

However, in my experience this is often an excellent thing! As there is that a lot of companies with a truly quality product don't have to excessively industry their products, their quality is known via word of mouth! LuvEssentials immediately fell into this category as I found out during my cursory research.

So what is Utmost Attraction? I might later find out that this pheromone perfume is just a hybrid perfume, composed of Androstenone, Androsterone, as well as Androstenol! Knowing anything regarding pheromones, it is a somewhat aggressive and powerful combination being contained in virtually any single **pheromone cologne!**

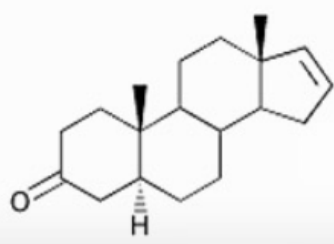

What is **Androstenone**?

Androstenone is a human pheromone which the pheromone community refers to as basically as a while making love based pheromone compound. Androstenone signals to those exposed, among other things, dominance, aggression, competition, and is highly known to be associated with, and to stimulate feeling of strong sexual destination."

What Will be **Androsterone**?

Androsterone is really a human pheromone that seems to have the effect of creating a great aura of masculinity about the wearer, and signalling an impression of defense, security, and reliability. In other words, a woman exposed to a male wearing Androsterone would most likely look at him as an Alpha Men protector kind, a man who would typically take care of her."

And Finally, What's Androstenol?

Androstenol is referred to as a social pheromone compound. The effects of being exposed to Androstenol signal the particular following; a sense of youth and vitality, friendliness, comfort, relaxation, and chattiness. In essence, in this case, a woman being exposed to Androstenol would be more likely to become friendly and calm, and would feel more at ease to engage in prolonged conversation during the period of exposure, i.e., a social pheromone...Very beneficial for "breaking the ice," and freely getting conversations going, especially with strangers."

Now it should be said, I was now a bit optimistic right after learning which pheromone substances composed this combination in Max Attraction. As I had been well aware that both Androstenone in addition to Androsterone both have been used to very good effect in a single on my favorite colognes called Alpha 7 Scented, so I had been well aware of the effectiveness!

- However, the inclusion of Androstenol was something fresh with regard to me!
- At least as utilized in a similar blend as Androstenone and Androsterone!
- So now I was chomping on the bit to give this stuff a try in the "real planet," to see what, if anything that it could actually do!

What are Pheromones Pheromones are actually chemical substances released from your body which have an impact on the response, physiology as well as progress of comparable species. Pheromones along with their effects are well documented with bugs. They had been...

After receiving my new jar of Max Attraction Rare metal pheromone spray, I opted to put it to use very quickly, wearing it the next morning before leaving my house in order to head off to work. On my way to work I made my ritualistic stop at my local Dunkin Donut shop to be able to pick up my standard large cup of coffee. Needless to express I would soon [notice] that this morning standard cease would be somewhat, different!

Contacted the cashier station and lightly greeted two very attractive young Asian girls manning the counter, both a minimum of 15+ years my juniors, each whom I saw nearly daily with little incident. Except today would have been to be different.

As I was looking up reading the menu about the wall, out of the corner of my eye I noticed both of these attractive young ladies quickly looking back and forth at each other, while putting on big grins on their faces and smiling at each other. The cuter of the two then rapidly and also repeatedly waves the woman's hands around her forehead, like air conditioning herself?

My attention peaked, I seem lower from the menu on the wall and see personally staring at both women standing presently there together with big smiles, their eye wide open as well as watching the me! These people both got that "Dear Caught In Headlights" seem as they stared from me smiling as well as unblinking! I thought to be able to personally, this is cool, I've never gotten this reaction from either one of these before!

Then placed my personal purchase as well as handed over my personal debit card, and had been taken aback slightly by the rather extra polite and borderline flirtatious actions I had been getting from each these types of youthful ladies, as I mentioned 15+ many years my juniors! I obviously smile back from both of them, and they seemed to just be if they were girls within school caught staring at a hot older teacher they had a crush on or something, it was a little weird to be honest!

“ *Nevertheless, I paid as well as left as I was going to be past due for work! Now I want to just state this kind of, what transpired at my place of work this morning, as well as on my repeat visit to Dunkin Donuts the following day, simply left me personally no doubt that Max Attraction was some effective stuff!*

I've tested a lot of pheromone colognes over time now, some been employed by well, while some have done virtually nothing, other than strain my personal pocket book of funds! However, after wearing Max Attraction regarding six total days, I was more than satisfied that this thing was the real deal! As well as quite honestly, in the hands of a skilled pheromone enthusiast, this kind of stuff is da.
