

Pheromones For Women - The truth about Pheromones And Women

While men are considered more likely to be interested in the use of **pheromone** products, this trend has been somewhat turned on its head recently with many more women joining the ranks.

There's a stronger presence of pheromones for women and in the event that you concentrate on human behavior for a moment, this just makes sense.

The Mating Game

The process of searching for a mate, men are more aggressive and you could be forgiven that the art of goal revolves mainly around men looking for a female partner. Hence the marketing of **pheromone products** has been directed at a mans market.

On the other hand, women are considered a little more subtle in their search for interactions along with the opposite sex but in a sense, are they less aggressive? Wherever am I going with this?

To cut a long explanation short, just because guys are observed more when they are on the prowl for female company it doesn't necessarily mean their opposite numbers aren't playing the same game.
