

## Pheromones For Women - The truth about Pheromones And Women

While men are considered more likely to be interested in the use of **pheromone** products, this trend has been somewhat turned on its head recently with many more women joining the ranks.

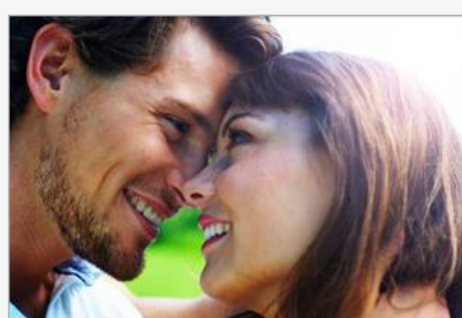

There's a stronger presence of pheromones for women and in the event that you concentrate on human behavior for a moment, this just makes sense.

### The Mating Game

The process of searching for a mate, men are more aggressive and you could be forgiven that the art of goal revolves mainly around men looking for a female partner. Hence the marketing of **pheromone products** has been directed at a man's market.

On the other hand, women are considered a little more subtle in their search for interactions along with the opposite sex but in a sense, are they less aggressive? Wherever am I going with this?

To cut a long explanation short, just because guys are observed more when they are on the prowl for female company it doesn't necessarily mean their opposite numbers aren't playing the same game.

# Pure Macho Pheromone

- So what's available for the ladies?
- Are there pheromones for women on the market?
- Sure there are.
- It just seems that they do not get the prominence in the advertising stakes as the male product.

“

*Why do we have chest locks and how to eliminate them? Hairs on our bodies have been inherited as a characteristic of mammals (animals that health professional their young kinds along with milk). Hair is a key component to our existence and plays many important roles - warmth and defense coming from...*

### Pheromones for Women

Copulin based pheromones for women are said to be the answer to a girl's quest to "nab her man." They are secreted by women naturally however, the copulins found in pheromone products are synthetic.

- Tests have indicated a man's testosterone levels can increase significantly if they get a sniff of copulins.
- In fact, levels can rise anywhere from 100-150% and more awesome, the reaction is almost instant.
- Women are considered a much more attractive proposition to a man if men get their dose of copulins through the nostrils.
- However, the question still needs to be asked...does a man really need to be tempted by a stimulant to be attracted to the opposite sex?
- While pheromones for women are available in both fragrance and concentrate kind, the use of these mirrors the same rules as it does for the men.
- Use lightly and remember, more is not better.
- Want to gain an **unfair advantage** in the attraction game?
- Pheromones for women can give you the rise in confidence you have been wanting.
- Plus, get the latest guidelines in getting pheromones.
